## Quick Specifications

| Attribute              | Value                                |
|------------------------|--------------------------------------|
| Product Type           | Routing Switch                       |
| Chassis                | 9-slot                               |
| Supervisor Engine      | SUP32-2X10GE-3BB                     |
| Uplink Interfaces      | 2 x 10GE                             |
| Power Supply           | Included                             |
| Forwarding Performance | 15 Mpps (Million packets per second) |
| Backplane Bandwidth    | 240 Gbps                             |
| Flash Memory           | 128 MB                               |
| DRAM                   | 512 MB                               |
| Expansion Modules      | 9 slots available                    |
| Console Ports          | 1 x RJ-45, 1 x Mini-USB              |
| Management Port        | 1 x Ethernet 10/100                  |
| High Availability      | Supports redundant power supplies    |
| Layer Support          | Layer 2 and Layer 3                  |
| IPv6 Support           | Yes                                  |
| QoS                    | Yes                                  |
| Security Features      | Access Control Lists (ACLs)          |
| Operating Temperature  | 0°C to 40°C (32°F to 104°F)          |
| Storage Temperature    | -40°C to 70°C (-40°F to 158°F)       |
| Humidity Range         | 5% to 95% non-condensing             |
| Product Code           | 7609-S323B-10G-P                     |
| Brand                  | CISCO                                |

## Replacement / Alternative Options

If the 7609-S323B-10G-P is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
