

# A9K-MOD400-SE - Cisco ASR 9000 Series Line Card

Model: A9K-MOD400-SE | Brand: CISCO

## Product Overview

400G Modular Linecard, Service Edge Optimized

Product page: <https://www.linknewnet.com/products/a9k-mod400-se>

## Quick Specifications

| Attribute                   | Value                             |
|-----------------------------|-----------------------------------|
| Product Type                | 400G Modular Linecard             |
| Optimization                | Service Edge                      |
| Port Count                  | 4 Ports                           |
| Port Speed                  | 100 Gbps per port                 |
| Interface Type              | QSFP28                            |
| Maximum Throughput          | 400 Gbps                          |
| Compatibility               | Cisco ASR 9000 Series             |
| Form Factor                 | Plug-in Module                    |
| Forwarding Engine           | NP-5                              |
| Redundancy                  | Supports redundant configurations |
| Software Compatibility      | Cisco IOS XR                      |
| MTBF                        | 1,000,000 hours                   |
| Operating Temperature Range | -40??C to 65??C                   |
| Power Consumption           | 200W                              |
| Heat Dissipation            | 682 BTU/hr                        |
| Dimensions (HxWxD)          | 1.75" x 15.3" x 22.63"            |
| Relative Humidity Range     | 5% to 95% non-condensing          |
| Compliance Standards        | RoHS, CE, FCC Part 15 Class A     |
| Input Voltage               | 48V DC nominal                    |
| Product Code                | A9K-MOD400-SE                     |
| Brand                       | CISCO                             |

## Replacement / Alternative Options

If the A9K-MOD400-SE is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
