## Quick Specifications

| Attribute                   | Value                                              |
|-----------------------------|----------------------------------------------------|
| Product Model               | Cisco AIR-AP2802E-H-K9C                            |
| Wireless Standards          | 802.11ac Wave 2                                    |
| Antenna Configuration       | 4x4:3 external antenna                             |
| Regulatory Domain           | H                                                  |
| Form Factor                 | External                                           |
| Connectivity Technology     | Wireless                                           |
| Data Transfer Rate          | 5.2 Gbps                                           |
| Wi-Fi Bands                 | 2.4 GHz, 5 GHz                                     |
| MIMO Technology             | Yes                                                |
| Beamforming Support         | Yes                                                |
| Ruggedized Design           | Indoor                                             |
| Power Options               | Power over Ethernet (PoE)                          |
| Operating Temperature Range | -20°C to 50°C                                      |
| Operating Humidity Range    | 10% to 90% (non-condensing)                        |
| Dimensions (W x D x H)      | 8.7 in x 8.8 in x 8.5 in                           |
| Security Features           | WPA2, MAC Address Filtering, RADIUS Authentication |
| Management Interface        | Web-based, Command Line Interface (CLI)            |
| Product Code                | AIR-AP2802E-H-K9C                                  |
| Brand                       | CISCO                                              |

## Replacement / Alternative Options

If the AIR-AP2802E-H-K9C is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
