## Quick Specifications

| Attribute             | Value                                                        |
|-----------------------|--------------------------------------------------------------|
| Brand                 | Cisco                                                        |
| Model                 | AIR-AP3802E-IK910                                            |
| Wireless Standard     | 802.11ac Wave 2                                              |
| Radio Configuration   | 4x4:3                                                        |
| CleanAir Technology   | Yes                                                          |
| Antenna Type          | External                                                     |
| Maximum Data Rate     | 5.2 Gbps                                                     |
| Ethernet Ports        | 1 x mGig (100/1000/2500/5000 Multigigabit RJ-45)             |
| Operating Frequency   | 2.4 GHz and 5 GHz                                            |
| Maximum Clients       | 2000 per access point                                        |
| Regulatory Domain     | I                                                            |
| MIMO                  | Multi-user MIMO (MU-MIMO)                                    |
| Dimensions            | 8.66 x 8.68 x 2.19 inches (220 x 221 x 56 mm)                |
| Power Options         | 802.3at PoE+, 802.3af PoE, Cisco PoE, External Power Adapter |
| Power Consumption     | 26W                                                          |
| Operating Temperature | 32??F to 104??F (0??C to 40??C)                              |
| Operating Humidity    | 10% to 90% (non-condensing)                                  |
| Security Features     | 802.1X, WPA3, WPA2, WPA                                      |
| Mounting Options      | Ceiling, Wall                                                |
| LED Indicators        | Yes                                                          |
| Product Code          | AIR-AP3802E-IK910                                            |
| Brand                 | CISCO                                                        |

## Replacement / Alternative Options

If the AIR-AP3802E-IK910 is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
