## Quick Specifications

| Attribute                               | Value                                                                                                                                  |
|-----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Product Description                     | Cisco Catalyst 3600 Series Access Points with external antennas                                                                        |
| Devide Type                             | Wireless Access point                                                                                                                  |
| Regulatory domain                       | A regulatory domain                                                                                                                    |
| Data rates supported                    | ● 802.11a: up to 54 Mbps ● 802.11g: up to 54 Mbps ● 802.11n: up to 450 Mbps                                                            |
| Interfaces                              | ● 10/100/1000BASE-T autosensing (RJ-45) ● Management console port (RJ-45)                                                              |
| System memory                           | ● 256 MB DRAM ● 32 MB flash                                                                                                            |
| Module options                          | ● Cisco Aironet Wireless Security Module ● Cisco Aironet IEEE 802.1ac Wave 1 Module ● Cisco Universal Small Cell 5310                  |
| Power consumption (purchase separately) | ● No external module installed, 4x4:3 on 2.4/5 GHz : 16.1 Watts ● with wireless Security module, 4x4:3 on 2.4/5 GHz +WSM: 19.6 Watts   |
|                                         | ● No external module installed, 3x3:3 on 2.4/5 GHz : 15.4 Watts ● with wireless Security module, 2x2:2 on 2.4/5 GHz +WSM: 15.4 Watts   |
| IEEE standards                          | ● IEEE 802.11a/b/g, 802.11n, 802.11h, 802.11d ● IEEE 802.11ac (by module)                                                              |
| Security                                | ● 802.11i, Wi-Fi Protected Access 2 (WPA2), WPA ● 802.1X ● Advanced Encryption Standards (AES), Temporal Key Integrity Protocol (TKIP) |
| Product Code                            | AIR-CAP3602E-I-K9                                                                                                                      |
| Brand                                   | CISCO                                                                                                                                  |

## Replacement / Alternative Options

If the AIR-CAP3602E-I-K9 is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
