

# F5 BIG-IP 1600 Series Load Balancer BIG-IP 1600

Model: BIG-IP 1600 | Brand: F5

## Product Overview

Application Security Manager and Local Traffic Manager

Product page: <https://www.linknewnet.com/products/askf5-big-ip-1600-series-big-ip-1600>

## Quick Specifications

| Attribute                          | Value                                                        |
|------------------------------------|--------------------------------------------------------------|
| Traffic Throughput:<br>Processing: | 1 Gbps                                                       |
| Hardware SSL:                      | Included: 500 TP SMaximum: 5,000 TPS, 1 Gbps bulk encryption |
| Software Compression:              | Included: 50 Mbps Maximum: 12 Gbps                           |
| Processor:                         | Gigabit Ethernet                                             |
| Memory:                            | 4 GB                                                         |
| Hard Drive:                        | 320 GB                                                       |
| Gigabit Ethernet CU Ports:         | 4                                                            |
| Gigabit Fiber Ports (SFP):         | 2 optional LX, SX, or copper                                 |
| Power Supply:                      | One 300W included, dual power option                         |
| Typical Consumption:               | 150W (110V input)                                            |
| Input Voltage:                     | 90-240 VAC +/- 10% auto switching                            |
| Width                              | 17 in                                                        |
| Height                             | 1.75 in                                                      |
| Depth                              | 21 in                                                        |
| Weight                             | 20 lbs                                                       |
| Min Temperature                    | 32 °F                                                        |
| Max Temperature                    | 104 °F                                                       |
| Humidity Operating                 | 10 - 90% (non-condensing)                                    |
| Product Code                       | BIG-IP 1600                                                  |
| Brand                              | F5                                                           |

## Replacement / Alternative Options

If the BIG-IP 1600 is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
