

# Cisco 3560 Series Switch WS-C3560-24TS-E

Model: WS-C3560-24TS-E | Brand: CISCO

## Product Overview

CiscoCatalyst 3560 24 10/100 + 2 SFP Enhanced Image

Product page: <https://www.linknewnet.com/products/cisco-3560-series-switch-ws-c3560-24ts-e>

## Quick Specifications

| Attribute            | Value                                                          |
|----------------------|----------------------------------------------------------------|
| Power cable          | No                                                             |
| Button               | No                                                             |
| Port                 | 24                                                             |
| (RJ-45) Ports        | 24                                                             |
| Port/Expansion Slot  | 24 x Fast Ethernet Network 2 x Gigabit Ethernet Expansion Slot |
| Media Type Supported | Twisted Pair                                                   |
| Twisted Pair Cable   | Category 5                                                     |
| Ethernet Technology  | Fast Ethernet                                                  |
| Network Technology   | 10Base-T 1000Base-X                                            |
| Layer Supported      | 4                                                              |
| Expansion Slots      | 2                                                              |
| Expansion Slot Type  | SFP                                                            |
| Number of SFP Slots  | 2                                                              |
| Manageable           | Yes                                                            |
| Standard Memory      | 128 MB                                                         |
| Memory Technology    | DRAM                                                           |
| MTBF                 | 326100 Hour                                                    |
| Power Source         | AC Adapter                                                     |
| Power Consumption    | 45 W                                                           |
| Input Voltage        | 110 V AC 220 V AC                                              |
| Product Code         | WS-C3560-24TS-E                                                |
| Brand                | CISCO                                                          |

## Replacement / Alternative Options

If the WS-C3560-24TS-E is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
