

# Cisco Catalyst 3750-E Series Switch WS-C3750E-24TD-S

Model: WS-C3750E-24TD-S | Brand: CISCO

## Product Overview

Cisco Catalyst 3750E 24 10/100/1000+2\*10GE(X2),265W,IPB s/w

Product page: <https://www.linknewnet.com/products/cisco-catalyst-3750-e-series-switch-ws-c3750e-24td-s>

## Quick Specifications

| Attribute                     | Value                                                                                                     |
|-------------------------------|-----------------------------------------------------------------------------------------------------------|
| Power cable                   | No                                                                                                        |
| Button                        | No                                                                                                        |
| Port                          | 24                                                                                                        |
| Product Type                  | Managed, Stackable 24 ports L3 Switch                                                                     |
| Form Factor                   | Fixed, Rack Mountable 1U, Stackable/Clustering                                                            |
| Switch Port density - Uplinks | 24 x 10/100/1000 Ethernet Ports Ethernet Ports + 2 x X2                                                   |
| DRAM Memory                   | 256 MB                                                                                                    |
| LED Status Lights Indicators  | Link activity, port transmission speed, port duplex mode, bandwidth utilization %, power, link OK, system |
| Layer Supported               | 3                                                                                                         |
| Power Source                  | Power Supply                                                                                              |
| Input Voltage                 | 120 V AC 230 V AC                                                                                         |
| Width                         | 44.5 cm                                                                                                   |
| Height                        | 4.5 cm                                                                                                    |
| Depth                         | 46 cm                                                                                                     |
| Weight                        | 8.1 kg                                                                                                    |
| Min Temperature               | 32 °F                                                                                                     |
| Max Temperature               | 104 °F                                                                                                    |
| Humidity Operating            | 10 - 85% (non-condensing)                                                                                 |
