

# PA-4E - Cisco 7200 Series Port Adapter

Model: PA-4E | Brand: CISCO

## Product Overview

Cisco 7200 Series 4-Port Ethernet 10BaseT Port Adapter

Product page: <https://www.linknewnet.com/products/cisco-pa-4e>

## Quick Specifications

| Attribute                  | Value                                             |
|----------------------------|---------------------------------------------------|
| Parameter                  | IEEE 802.3 Ethernet 10BaseT Ethernet              |
| Data Rate (Mbps)           | 10 10                                             |
| Signaling method           | Baseband Baseband                                 |
| Maximum segment length (m) | 500 100 (UTP)                                     |
| Media                      | 50-ohm coax (thick) Unshielded twisted-pair (UTP) |
| Topology                   | Bus Star                                          |
| Cable specification        | Category 3 or Category 5 UTP with 22 to 24 AWG    |
| Maximum segment length     | 328 ft (100 m) for 10BaseT                        |
| Maximum network length     | 9,186 ft (2,800 m) (with 4 repeaters)             |
| Product Code               | PA-4E                                             |
| Brand                      | CISCO                                             |

## Replacement / Alternative Options

If the PA-4E is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.

| Model                           | Specification                                                                       |
|---------------------------------|-------------------------------------------------------------------------------------|
| <a href="#">WS-X6816-10G-2T</a> | Cisco Catalyst 6500 Series WS-X6816-10G-2T 16 Port 10 Gigabit Ethernet Fiber Module |
| <a href="#">WS-C4948E</a>       | Cisco Catalyst 4948E, opt sw, 48-Port 10/100/1000+ 4 SFP+, INCLUDES DUAL AC         |
