## Quick Specifications

| Attribute                         | Value                          |
|-----------------------------------|--------------------------------|
| Brand                             | Cisco                          |
| Model                             | PA-8E-IPP                      |
| Series                            | 7200 Series                    |
| Number of Ports                   | 8                              |
| Port Type                         | Ethernet                       |
| Compatibility                     | Cisco 7200 VXR Chassis         |
| Max Throughput                    | 45 Mbps                        |
| Supported Protocols               | Ethernet, Fast Ethernet        |
| Bus Type                          | PCI                            |
| Form Factor                       | Plug-in module                 |
| Redundancy Support                | Yes                            |
| Power Requirements                | 7.5V, 1.5A                     |
| Jumbo Frames Support              | Up to 9216 bytes               |
| Operating Temperature             | 0°C to 40°C (32°F to 104°F)    |
| Storage Temperature               | -40°C to 70°C (-40°F to 158°F) |
| Humidity                          | 5% to 90% (non-condensing)     |
| Dimensions (HxWxD)                | 5.4 x 1.1 x 9.2 inches         |
| MTBF (Mean Time Between Failures) | 500,000 hours                  |
| Management Interface              | CLI, SNMP                      |
| Compliance                        | FCC, CE                        |
| Product Code                      | PA-8E-IPP                      |
| Brand                             | CISCO                          |

## Replacement / Alternative Options

If the PA-8E-IPP is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
