## Quick Specifications

| Attribute                        | Value                                 |
|----------------------------------|---------------------------------------|
| Brand                            | Cisco                                 |
| Model Name                       | SPA-4XOC3-ATM (USED)                  |
| Port Quantity                    | 4                                     |
| Port Type                        | OC-3c/STM-1                           |
| Application                      | ATM Shared Port Adapter               |
| Max Throughput per Port          | 155.52 Mbps                           |
| Form Factor                      | Plug-in module                        |
| Supported Protocols              | ATM, SONET/SDH                        |
| Cisco IOS Software Compatibility | Yes                                   |
| Redundancy Support               | Yes                                   |
| Hot Swappable                    | Yes                                   |
| Compliance Standards             | RoHS, NEBS Level 3                    |
| Power Consumption                | 35 Watts                              |
| Cooling Requirement              | Front-to-back airflow                 |
| Dimensions                       | 1.58 x 9.73 x 8.69 inches (H x W x D) |
| Product Code                     | SPA-4XOC3-ATM                         |
| Brand                            | CISCO                                 |

## Replacement / Alternative Options

If the SPA-4XOC3-ATM is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
