## Quick Specifications

| Attribute                          | Value                                                                                                  |
|------------------------------------|--------------------------------------------------------------------------------------------------------|
| Type                               | CISCO1941-HSEC+/K9 VPN ISM module HSEC bundles for 1941 ISR platform                                   |
| Form Factor                        | External - modular - 2U                                                                                |
| Dimensions (WxDxH)                 | 34.3 cm x 29.2 cm x 8.9 cm                                                                             |
| Weight                             | 5.8 kg                                                                                                 |
| DRAM Memory                        | 512 MB (installed) / 2 GB (max)                                                                        |
| Flash Memory                       | 256 MB (installed) / 8 GB (max)                                                                        |
| Routing Protocol                   | OSPF, IS-IS, BGP, EIGRP, DVMRP, PIM-SM, IGMPv3, GRE, PIM-SSM, static IPv4 routing, static IPv6 routing |
| Data Link Protocol                 | Ethernet, Fast Ethernet, Gigabit Ethernet                                                              |
| Network / Transport Protocol       | IPSec                                                                                                  |
| Remote Management Protocol         | SNMP, RMON                                                                                             |
| Power                              | AC 120/230 V ( 50/60 Hz                                                                                |
| Total Onboard LAN 10/100/1000      | 2                                                                                                      |
| RJ-45-Based Ports                  | 2                                                                                                      |
| SFP-Based Ports                    | 0                                                                                                      |
| SM Slots                           | 0                                                                                                      |
| Double-Wide SM Slots               | 0                                                                                                      |
| EHWIC Slots                        | 2                                                                                                      |
| ISM Slots                          | 1 (0 on the Cisco 1941W)                                                                               |
| Memory (DDR2 ECC DRAM) - Maximum   | 2.0 GB                                                                                                 |
| Compact Flash (external) - Default | slot 0: 256 MB slot 1: none                                                                            |
| Product Code                       | CISCO1941-HSEC+/K9                                                                                     |
| Brand                              | CISCO                                                                                                  |

## Replacement / Alternative Options

If the CISCO1941-HSEC+/K9 is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
