## Quick Specifications

| Attribute          | Value                                                              |
|--------------------|--------------------------------------------------------------------|
| Brand              | Cisco                                                              |
| Model              | ESR1OC48/P/SRPSML                                                  |
| Product Name       | Cisco 10000 Line Card ESR1OC48/P/SRPSML OC-48/STM-16 POS/SRP SM-LR |
| Form Factor        | Plug-in module                                                     |
| Interface          | OC-48/STM-16 POS/SRP                                               |
| Maximum Data Rate  | 2.488 Gbps                                                         |
| Media              | Single-mode Fiber (SM-LR)                                          |
| Compatibility      | Cisco 10000 Series Routers                                         |
| Protocols          | POS/SRP                                                            |
| Connector Type     | SC                                                                 |
| Optical Wavelength | 1310 nm                                                            |
| Relative Humidity  | 10% to 90%, non-condensing                                         |
| Maximum Distance   | 10 km                                                              |
| Power Consumption  | 25W                                                                |
| Diagnostics        | Optical performance monitoring                                     |
| Compliance         | RoHS                                                               |
| MTBF               | 500,000 hours                                                      |
| LED Indicators     | Link, Activity                                                     |
| Dimensions         | 12.7 x 2.5 x 29.2 cm                                               |
| Product Code       | ESR1OC48/P/SRPSML                                                  |
| Brand              | CISCO                                                              |

## Replacement / Alternative Options

If the ESR1OC48/P/SRPSML is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
