

# FP7120-K9 - Cisco FirePOWER 7000 Series Devices

Model: FP7120-K9 | Brand: CISCO

## Product Overview

Cisco FirePOWER 7120 Chassis. 1U. 8 Port Copper

Product page: <https://www.linknewnet.com/products/fp7120-k9>

## Quick Specifications

| Attribute                         | Value                                           |
|-----------------------------------|-------------------------------------------------|
| IPS Throughput*                   | 1 Gbps                                          |
| Modular Interfaces                | No                                              |
| Monitoring Interfaces             | (8) 1-Gbps copper; (8) 1-Gbps short-range fiber |
| Programmable Fail-Open Interfaces | Yes                                             |
| Management Interfaces             | RJ45                                            |
| Management Interface Speed        | 10/100/1000                                     |
| Typical Latency                   | < 150 microseconds                              |
| Memory (RAM)                      | 16 GB                                           |
| Lights-Out Management             | Yes                                             |
| Stackable                         | No                                              |
| Dual Power Supplies               | Yes                                             |
| Cooling Fans                      | 5                                               |
| Product Code                      | FP7120-K9                                       |
| Brand                             | CISCO                                           |

## Replacement / Alternative Options

If the FP7120-K9 is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
