## Quick Specifications

| Attribute             | Value                               |
|-----------------------|-------------------------------------|
| Brand                 | Juniper                             |
| Model                 | EX9208-BASE3B-AC-T                  |
| Chassis Type          | 8-slot                              |
| Midplane              | Passive                             |
| Fan Tray              | 1x                                  |
| Routing Engine        | 1x EX9200-RE2                       |
| Switch Fabric Module  | 1x switchfabric-2                   |
| Power Supply Units    | 3x 2520W AC PSUs                    |
| TAA Compliance        | Yes                                 |
| Blank Panels          | All necessary included              |
| Ports                 | Modular                             |
| Management            | Centralized Management via Junos OS |
| Fabric Capacity       | Up to 240 Gbps per slot             |
| Forwarding Capacity   | Up to 13.2 Tbps                     |
| Redundancy            | Redundant Power and Cooling         |
| Cooling               | Field-Replaceable Units             |
| Layer Support         | Layer 2 and Layer 3                 |
| Rack Mounting         | Standard 19-inch rack mountable     |
| Operating System      | Junos OS                            |
| Operating Temperature | 0??C to 40??C                       |
| Product Code          | Juniper EX9208-BASE3B-AC-T          |
| Brand                 | Juniper                             |

## Replacement / Alternative Options

If the Juniper EX9208-BASE3B-AC-T is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
