## Quick Specifications

| Attribute                  | Value                                                                    |
|----------------------------|--------------------------------------------------------------------------|
| Brand                      | Juniper                                                                  |
| Product Name               | EX9214-RED3B-DC                                                          |
| Chassis Type               | 14-slot chassis with passive midplane                                    |
| Fan Trays                  | 2x fan trays                                                             |
| Routing Engines            | 2x EX9200-RE2                                                            |
| Switch Fabric Modules      | 3x switch fabric-2 modules                                               |
| Power Supply Units         | 4x 4100W DC PSUs                                                         |
| Blank Panels               | Included for all necessary slots                                         |
| System Configuration       | Redundant configuration for enhanced reliability                         |
| Power Redundancy           | Yes, with 4x 4100W DC PSUs                                               |
| Cooling                    | Enhanced cooling with 2x fan trays                                       |
| Routing Engine Model       | EX9200-RE2                                                               |
| Switch Fabric              | Support for 3x switch fabric-2 modules                                   |
| Management Ports           | Included on routing engines                                              |
| Redundancy Support         | Dual routing engines and power supplies for high availability            |
| Installation               | Designed for easy installation and maintenance                           |
| Operational Efficiency     | Optimized for high performance and scalability                           |
| Environmental Requirements | Designed to operate in diverse environmental conditions                  |
| Compatibility              | Compatible with a wide range of Juniper networks modules and accessories |
| Warranty                   | Standard Juniper warranty applies                                        |
| Product Code               | Juniper EX9214-RED3B-DC                                                  |
| Brand                      | Juniper                                                                  |

## Replacement / Alternative Options

If the Juniper EX9214-RED3B-DC is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
