

# Juniper EX9253-RE Switches

Model: Juniper EX9253-RE | Brand: Juniper

## Product Overview

EX9253 Route Engine

Product page: <https://www.linknewnet.com/products/juniper-ex9253-re>

## Quick Specifications

| Attribute              | Value                                                               |
|------------------------|---------------------------------------------------------------------|
| Product Type           | EX9253 Route Engine                                                 |
| Brand                  | Juniper                                                             |
| Model                  | EX9253-RE                                                           |
| Form Factor            | Plug-in module                                                      |
| Dimensions (HxWxD)     | 1.72 x 15.04 x 21.96 in                                             |
| Max Power Consumption  | 500 W                                                               |
| Operating Temperature  | 32°F to 104°F (0°C to 40°C)                                         |
| Storage Temperature    | -40°F to 158°F (-40°C to 70°C)                                      |
| Operating Humidity     | 10% to 90% (non-condensing)                                         |
| Storage Humidity       | 0% to 95% (non-condensing)                                          |
| Ports                  | 2x 100GbE, 4x 10GbE                                                 |
| Processor              | Intel Xeon D-1548, 2.0 GHz, 8 cores                                 |
| RAM                    | 32 GB                                                               |
| Boot Flash Memory      | 16 GB                                                               |
| Expandable Storage     | 256 GB SSD                                                          |
| Software Compatibility | Juniper Junos OS 19.1                                               |
| Management Interfaces  | 1x console port, 1x management Ethernet port                        |
| Safety Certifications  | UL-UL60950-1, CAN/CSA-C22.2 No 60950-1-07, EMC: FCC Part 15 Class A |
| MTBF                   | Over 200,000 hours                                                  |
| Product Code           | Juniper EX9253-RE                                                   |
| Brand                  | Juniper                                                             |

## Replacement / Alternative Options

If the Juniper EX9253-RE is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.

| Model                                      | Specification                                                                                               |
