

# Juniper JNP-100G-DAC-5M Switches

Model: Juniper JNP-100G-DAC-5M | Brand: Juniper

## Product Overview

QSFP28, 100GE Direct Attach Copper Cable, 5 meters, Standard Temperature (0 through 70 DEGREE C), 0.015W, 26 AWG

## Quick Specifications

| Attribute                | Value                                          |
|--------------------------|------------------------------------------------|
| Brand                    | Juniper                                        |
| Product Name             | Juniper JNP-100G-DAC-5M                        |
| Type                     | QSFP28, 100GE Direct Attach Copper Cable       |
| Length                   | 5 meters                                       |
| Temperature Range        | Standard Temperature (0 through 70°C)          |
| Power Consumption        | 0.015W                                         |
| Cable Gauge              | 26 AWG                                         |
| Connector Type           | QSFP28 to QSFP28                               |
| Compatibility            | 100GE Networking Devices                       |
| Data Rate                | 100 Gbps                                       |
| Cable Type               | Direct Attach Copper (DAC)                     |
| Use Case                 | High Speed Data Transmission                   |
| Operational Environment  | Data centers, enterprise networks              |
| Regulatory Compliance    | Meets relevant industry standards              |
| Warranty                 | Limited warranty (specific terms not provided) |
| Package Includes         | 1 x Juniper JNP-100G-DAC-5M Cable              |
| Manufacturing Standard   | ISO Certified                                  |
| Cable Color              | Typically Black or Silver (varies by batch)    |
| Connector Material       | Gold-plated contacts for better connectivity   |
| Environmental Compliance | RoHS compliant                                 |
| Product Code             | Juniper JNP-100G-DAC-5M                        |
| Brand                    | Juniper                                        |

## Replacement / Alternative Options

If the Juniper JNP-100G-DAC-5M is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.

| Model                        | Specification                                                                     |
|------------------------------|-----------------------------------------------------------------------------------|
| Juniper<br>EX-QFX-MACSEC-AGG | MACSec SW Feature License on Aggregation Switches. Applicable to EX4550 Switches. |

|                               |                                                                                                             |
|-------------------------------|-------------------------------------------------------------------------------------------------------------|
| Juniper<br>EX-SFP-10GE-DAC-1M | SFP+, 10GE Direct Attach Copper Cable, 1 meter, Standard Temperature (0 through 70 DEGREE C), 0.57W, 30 AWG |
|-------------------------------|-------------------------------------------------------------------------------------------------------------|
