

# SRX-SFPP-10G-SR-ET - Juniper Security Transceivers

Model: SRX-SFPP-10G-SR-ET | Brand: Juniper

## Product Overview

SFP+ 10GE pluggable transceiver, short reach, 850nm for 200m transmission, Extended Temp 0-85

## Quick Specifications

| Attribute             | Value                                                                |
|-----------------------|----------------------------------------------------------------------|
| Brand                 | Juniper                                                              |
| Product Name          | SRX-SFPP-10G-SR-ET                                                   |
| Type                  | SFP+ 10GE pluggable transceiver, short reach                         |
| Wavelength            | 850nm                                                                |
| Transmission Distance | Up to 200m                                                           |
| Temperature Range     | 0■■■C to 85■■■C (Extended Temperature Range)                         |
| Connector Type        | LC Duplex                                                            |
| Compatible Cable      | OM3/OM4 Multi-Mode Fiber                                             |
| Data Rate             | 10 Gbps                                                              |
| Support Protocol      | 10 Gigabit Ethernet                                                  |
| Form Factor           | SFP+                                                                 |
| DOM Support           | Yes                                                                  |
| Max Power Consumption | &lt;1.5W                                                             |
| Modulation            | NRZ                                                                  |
| Signal Detection      | Yes                                                                  |
| Receiver Sensitivity  | -11.1 dBm (max)                                                      |
| Overload              | -3 dBm (min)                                                         |
| Compatibility         | Compatible with Juniper SRX Series and other MSA-compliant SFP ports |
| Operational Humidity  | 5% to 95% non-condensing                                             |
| Standards Compliance  | IEEE 802.3ae, SFF-8431, SFF-8472                                     |
| Product Code          | SRX-SFPP-10G-SR-ET                                                   |
| Brand                 | Juniper                                                              |

## Replacement / Alternative Options

If the SRX-SFPP-10G-SR-ET is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
