## Quick Specifications

| Attribute                        | Value                                |
|----------------------------------|--------------------------------------|
| Specification                    | Details                              |
| Product Model                    | WS-C3650-48PD-L                      |
| Layer Supported                  | 2                                    |
| Uplink Ports                     | 2 x 10G SFP+ or 4 x 1G SFP           |
| Manageable                       | Yes                                  |
| Number of Total Expansion Slots  | 4                                    |
| PoE (RJ-45) Port                 | No                                   |
| Redundant Power Supply Supported | Yes                                  |
| Expansion Slot Type              | SFP                                  |
| Form Factor                      | Rack-mountable                       |
| Power Source                     | Power Supply                         |
| Ports                            | 48 x 10/100/1000 PoE+ Ethernet ports |
| Dimensions (W x D x H)           | 17.5" x 17.6" x 1.7";                |
| Product Code                     | WS-C3650-48PD-L                      |
| Brand                            | CISCO                                |

## Replacement / Alternative Options

If the WS-C3650-48PD-L is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
