

# Cisco Catalyst 6500 Series Switch WS-C6513-S32P10GE

Model: WS-C6513-S32P10GE | Brand: CISCO

## Product Overview

Cat6513 chassis, WS-S32-10GE-PISA, Fan Tray (req.P/S)

Product page: <https://www.linknewnet.com/products/ws-c6513-s32p10ge>

## Quick Specifications

| Attribute                     | Value                                                                                                    |
|-------------------------------|----------------------------------------------------------------------------------------------------------|
| Redundant control channel     | Increases resiliency to protect against backplane control channel failures                               |
| Slot                          | 13                                                                                                       |
| Layer Supported               | 3                                                                                                        |
| Fan tray                      | Supports hot-swappable fan tray The 6509-VE offers spare, hot-swappable fan trays                        |
| AC and DC power supply        | Supports both AC and DC power supply options, including AC and DC mixing                                 |
| Redundant power supply option | Supports redundant power supplies for increased availability                                             |
| Operating Temperature         | 32°F to 104°F (0 to 40°C)                                                                                |
| Thermal Transition            | 0.5°C per minute (hot to cold) 0. 33°C per minute (cold to hot)                                          |
| Storage Temperature           | -4 to 149°F (-20 to 65°C)                                                                                |
| Relative Humidity             | Ambient (noncondensing) operating: 5% to 90% Ambient (noncondensing) nonoperating and storage: 5% to 95% |
| Product Code                  | WS-C6513-S32P10GE                                                                                        |
| Brand                         | CISCO                                                                                                    |

## Replacement / Alternative Options

If the WS-C6513-S32P10GE is out of stock or end-of-life, these same-brand alternatives deliver comparable capability. Contact our sales team to confirm availability.
